

RAGERS: Radio Galaxy Environment Reference Survey

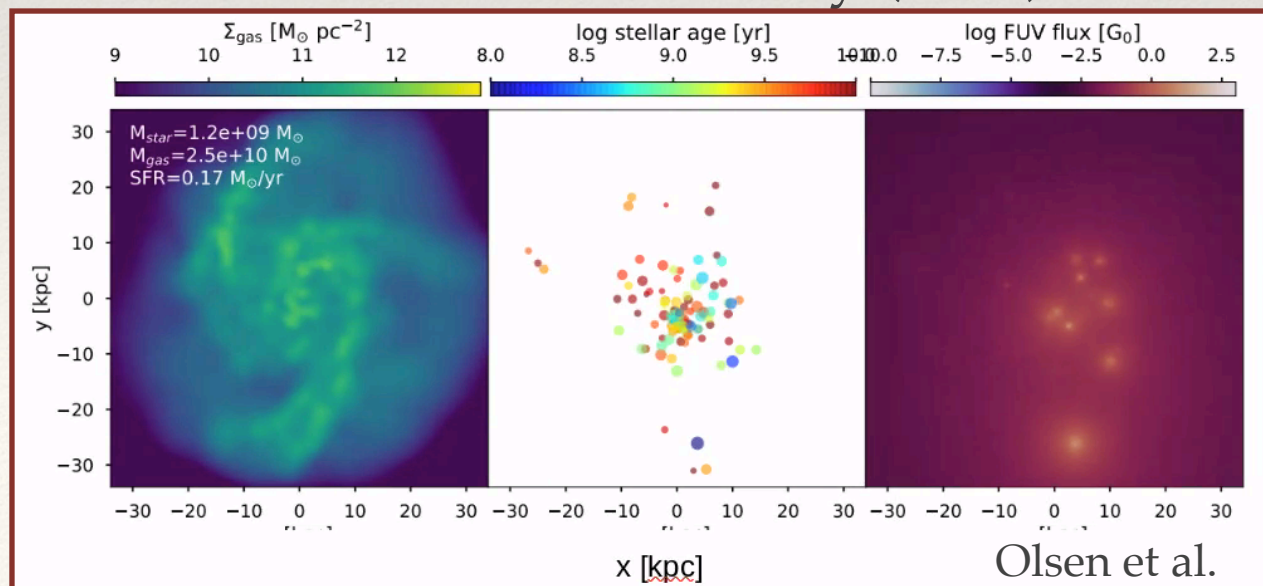

Future/
Collaboration:
Simulations of
SMG-overdensities
around massive
galaxies

Greenland Telescope & GISMO: towards a 2mm survey of the NEP

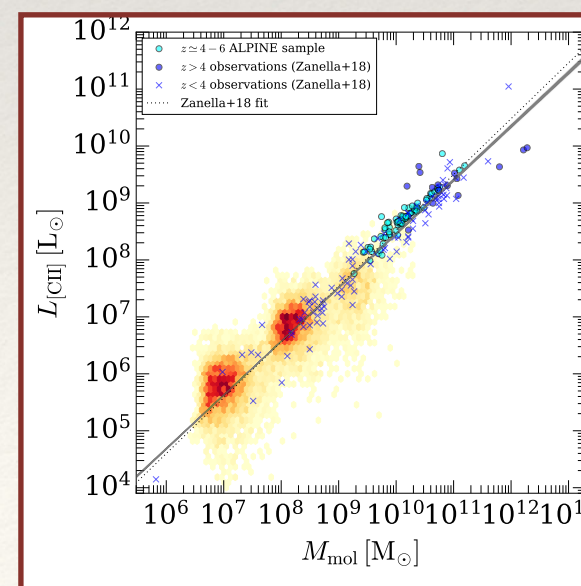

Future/
Collaboration:
Simulated 2mm
maps for optimal
survey design and
science output

SIGAME: Simulator of Galaxy (sub-)Millimeter Emission

Olsen et al.

Future/
Collaboration:

Line Intensity Maps
([CII] z~6).
Implementation of
ML/ANN techniques
